Public Introduction

July 1st, Public announcement that a new company, Global Space Foundation would be established in Conroe, Texas. The business is to operate as a non-profit company with the intent of seeking funding to operate a Space Museum & Educational Center. Location and Details of Center are in the Definition Phase.

Mission Statement

To commercialize on the efforts of NASA by building multiple business enterprises utilizing Space Technology already developed to expand the economic base of the world and enhance the human condition.

The Dream

To restart the Space Program by private industry on a scale like that of the industrial revolution. It will be the beginning of a new age where Space Technology is the dominate economic sector of developed countries. To engineer, build, launch and support a privately owned Space Program based on new and existing technologies.

Goals

Create a Space Technology Museum and Visitor Center, Space Habitat Environment Simulators Center, Space Technology Educational Center, and Space Business Incubator Center

Thank you for your time and support.
